

# Alef's Harley Davidson Open House

By Bob Christian

On August 11, Alef's Harley Davidson held an Open House. Sunflower Chapter was invited to put on a display of Antique Motorcycles. We had a good turn out of club members and 12 antique bikes on a very hot August day. Typical weather for Kansas in summer!

Jerry Ottaway brought a large canopy and brought a table to hand out literature for the club and to visit with people interested in old bikes. We found an area of very nice grass near the front entrance of the dealership to set up our table. We all had a great time hanging out and visiting.

Alef's Harley Davidson had hired a barbeque company to cater in lunch and we all did our share to eat all that we could. The dealership did a great job of filling up their showroom with beautiful new bikes and accessories. We all really enjoyed looking at the shiny, new modern bikes.

All in all, in spite of the very hot weather, we had a lot of fun. If you ever get a chance to go to an open house a Alef's, I
